

Underdog Aromatherapy

Aromatherapy Convection Vaporizers

Thank you for your purchase of an Underdog vaporizer. Your Underdog is a high-tech, handmade work of art and is one of the nicest, most efficient convection vaporizers money can buy. Each one is made and assembled, by hand, in the USA.

Each wooden body is made by hand and proudly bears its own little blemishes and idiosyncrasies. The high-tech inner workings are also handmade in America using food grade stainless steel and lead free electrical components. Stems (mouthpieces) are made from nylon, borosilicate glass, stainless steel and/or high-temperature food grade silicone, and are ISO Alcohol or dishwasher safe for easy cleaning. All our parts and processes are 100% lead free and are fully RoHS compliant.

Since everyone uses their Underdog a little differently there are no exact one-size-fits-all instructions, but we'll try and start you off with some helpful hints below. Visit underdogvapes.com/faq or [youtube.com/user/UnderdogVapes](https://www.youtube.com/user/UnderdogVapes) for more tips. By its very nature your vaporizer can get very hot to the touch while plugged in. Please be careful while handling it and the stems that come into contact with it. Don't touch the metal, as it will be very hot.

Helpful Hints

- Let your Underdog warm up for 10-20 minutes before using for **optimal** results.
- Grind up a bit of material and inhale it into the screen end of the stem, you'll find out it doesn't take much.
- Slide the stem and body carefully together; hold horizontally to keep material from falling out of the stem. Please note that glass and stainless steel tipped stems will fit loosely with the center tube.
- Draw slowly, steadily and deeply through the stem to get the best vapor. To keep screens clean, blow out used material while still hot. If needed, take an empty, hot hit and blow through again.
- Lather, rinse, and repeat as necessary.
- Unplug and let cool before storing your Underdog.
- Enjoy!

Packing List

- Vaporizer
- Power Supply & Extension Cord (use extension cord to reduce wear/tear on power supply cord)
- Stems & Muslin ABV Bag
- Underbutter (wood conditioner)

If Ordered:

- Aroma Cup
- Accessories
- Goodies

Notes/Special Instructions
